

# Painting Fireworks on a Black Canvass

# Supplies

- Black canvass or black construction paper
- Acrylic Paint – blue, white, red, orange, yellow, green
- 1-2 Q-tips for each paint colour

# Examples

Feel free to design the fireworks however you'd like!

# 1. Paint the Water

- Use your Q-Tip to paint the water
- Use blue paint for the Water and white for the waves

## 2. Begin to Paint the Firework Design

- Use your Q-Tip and white paint as the base for the “starburst”
- Since you are painting on black, the white paint make the colors brighter later

### 3. Fill the Fireworks In

- Use your Q-Tip to fill the fireworks in
- You can also use the tip of a pencil or pen to add dots to extend reach of the fireworks

## 4. Add the colour

- Use your Q-Tip to Color over your white paint
- Once each “starburst” has a color, you can mix as you wish to add accent colours
- You can also add color to the water to show a reflection of the fireworks

# And You're done!
